

## The State Farm Opportunity

As an intern you are immersed in our fun and fast-paced State Farm culture getting hands-on experience with a Fortune 50 company. The 10-week internships are paid, and located throughout the Pacific Northwest Zone.

Interns jump right in and contribute like any other State Farm employee. Departments with intern opportunities have included: claims, underwriting, marketing/public affairs, learning and development, human resources, planning and analysis, agency recruiting, and agency field offices.

*"I was given projects that were relevant. The work was interesting and was reviewed by top decision makers in our Zone. I felt like a valued co-worker in department projects." Chase Birky, 2008 Intern, Point Loma Nazarene University*

In addition to department projects, you will also collaborate with other interns in a specific zonewide intern project. The culmination of the summer internship is a presentation of this project to members of the zone executive management team — a fantastic experience and a resume builder!
